

JOHN B. GARNER, P.E.

Director of Engineering

EDUCATIONAL BACKGROUND

Texas A&M University, 1980 - Bachelors of Science - Mechanical Engineering
Registered Professional Engineer - Texas # 64148
Continuing Education-Industry Schools: See below.

RELEVANT WORK EXPERIENCE

1999 - Present Boots & Coots/IWC - Well Control Engineer; Director of Engineering
1989 - 1999 Avanti Turnkey Drilling / Avanti Consulting – Site Drlg Sup'vr; Sr. Engineer; VP Operations
1987 - 1989 Oxoco Energy Inc. / Terra Resources Inc. - Senior Drilling Engineer
1982 - 1987 Westland Oil Development Corp. - District Drilling Engineer
1980 - 1982 Otis Engineering (A Halliburton Company)- Field Operations Engineer
1978 - 1979 Loffland Brothers Drilling Co. - Roughneck, Gulf of Mexico

HIGHLIGHTS OF WELL CONTROL EXPERIENCE

2003 South Ramallah, Iraq - Operations Engineer on 30,000 bpd oil well fires during Operation Iraqi Freedom.
Galveston Bay Texas – Well Control Engineer on surface gas blowout & fire.
Los Angeles Ca. - Well Control Engineer on 1,500 bopd UGBO broached to surface.
2002 Crossville Tennessee - Well Control Engineer on 1,200 bpd oil well blowout & fire.
Vermillion Parish, La - Well Control Engineer on underground blowout broached to surface.
Hellhole Bayou, La – Well Control Engineer HTHP kick off bottom, strip and kill.
2001 Rapides Parish, La - Well Control Engineer on 25 mmcf/gpd & 15,000 bfpd surface blowout.
Calcasieu Parish, La - Well Control Engineer on underground blowout broached to surface.
Plaquemine Parish, La - Well Control Engineer on underground blowout broached to surface.
Matagorda Co., Texas - Well Control Engineer on underground blowout of HTHP well.
2000 Hardin Co., Texas - Well Control Engineer on underground blowout.
Tuchola, North Central Poland - Well Control Engineer on underground blowout.
Jefferson Co., Texas – Well Control Engineer on surface gas blowout.
Mustang Island A-59 Well Control Engineer HTHP kick off bottom, strip and kill.
Hassi Messaoud, Algeria - Well Control Engineer to develop work program for underground blowout of gas into the Albian aquifer.
1999 Jefferson Co., Texas - Operations Engineer responsible for control of underground blowout.
Acadia Parish, La - Operations Engineer responsible for control of underground blowout.
1993 Gulf of Mexico High Island Blk. A-556 - Directed control of underground blowout from liner top leak with uncontrolled broached flow at mud line suspension assembly.
1986 Mentone, Loving Co., Texas - Surface Blowout of Atoka / Morrow formation following TCP gun pre-detonation and surface BOP equipment failure. Supported capping operations and provided engineering supervision of subsurface intervention and wellbore recovery.
1985 Houston Co. Texas – Surface Blowout of Lower Cotton Valley HTHP test. Provided engineering site support to relief well drilling to 19,500 ft and completion.

CONTINUING EDUCATION – INDUSTRY SCHOOLS

Otis Engineering Co.; Prentice & Records Advanced Drilling School; Microbar Drilling Fluids School; Baroid Advanced Drilling Fluids School; Hughes Tool Company - Rock Bit Design; Dowell Company - Cementing Technology; Schlumberger - Well Logging Techniques; Prentice & Records - Advanced Drilling School; Smith International; Abroad Advanced Drilling Fluids School; Well Control Certification - Operators Representative; Boots & Coots - Well Control Applications, Subsurface Intervention, Advanced; Reactive Pills; Surface Intervention; Difficult Well Control Problems; Lockout / Tag out and Hazwopper OSHA Confined Space Awareness; Hydrogen Sulfide Training; Hydrogen Sulfide Training .
